

2003 IEEE Radio and Wireless Conference

Hilton Boston Logan Airport

Boston, Massachusetts, USA

August 10-13, 2003

<http://rawcon.org>

Exhibit/Sponsorship Prospectus

General Co-Chairs

J. Stevenson Kenney
Georgia Institute of Technology
j.s.kenney@ieee.org

Peter Staecker
p.staecker@ieee.org

Technical Program Chair

Ke Wu
Ecole Polytechnique
wuke@grmes.polymtl.ca

Finance, Registration

Bob Alongi
IEEE Boston Section
r.alongi@ieee.org

Local Arrangements

Ian Gresham
Tyco Electronics
greshami@tycoelectronics.com

Exhibition

Jennifer Turso
IEEE
j.turso@ieee.org

Digest

George Heiter
gheiter@worldnet.att.net

Webmasters

Takao Inoue
The University of Texas at Austin

Graphic Arts

Roger Sudbury
MIT Lincoln Laboratory
r.sudbury@ieee.org

Advisory Board

Mike Heutmaker
Lucent Technologies
heutmaker@lucent.com

Roger Marks
NIST
r.b.marks@ieee.org

The IEEE Radio and Wireless Conference (RAWCON2003) presents the most recent interdisciplinary aspects of wireless and RF technology. From components to systems to networks, this conference focuses on how the pieces fit together to shape the latest developments in communications technology, and the convergence of applications. In addition to oral presentations and posters, the meeting includes workshops and panels, as well as exhibits and presentations by vendors. New features of the conference this year:

- Additional technical sessions and workshops have been added this year to increase the content and appeal of the meeting.
- Session keynote speakers will review recent developments in each session.
- The December 2003 issue of the Microwave Theory and Techniques Society's award-winning [IEEE Microwave Magazine](#) will feature selected articles from the conference.

RAWCON is known for its informal atmosphere, where attendees from industry and universities around the world exchange the latest ideas in various RF/wireless disciplines. Approximately 250 technical registrants attend this meeting that is regularly covered by the electronics industry press.

The location for RAWCON 2003 will again be in Boston, MA. The meeting will be hosted by the Hilton Boston Logan Airport, a new hotel on the airport property which is located within walking distance of all Logan Terminals, and yet only minutes away by taxi, T, complimentary hotel shuttle, or water taxi from downtown Boston.

Vendor Exhibition

RAWCON2003 is a great venue for vendors to display their products to world-class technologists. Exhibits are reasonably priced at \$750 for a 6' Tabletop and \$1000 for an 8x10 booth.

In addition to the exhibit, RAWCON 2003 offers the opportunity for your company to sponsor a catered event such as a reception or coffee break in exchange for publicity at the Conference. Please contact Exhibits Coordinator Jennifer Turso for more details.

RAWCON2003 is sponsored by the IEEE Microwave Theory and Techniques Society (MTT-S) and the IEEE Boston Section.
