

# Radio Wireless Week

7 – 12 January 2007, Long Beach, CA

<http://www.radiowirelessweek.org/>

**Radio and Wireless Week** consists of 3 conferences plus workshops, short courses and panel sessions in a nice location. We have a great technical program and exhibit plan prepared for this 2nd annual event. See you in Long Beach.

8-9 January 2007

**Power Amplifier Symposium (PAS)** This conference concentrates on the latest in PA approaches and results in infrastructure and portable terminals for cellular; wireless personal, local and wide area networking; and emerging applications.

This meeting seeks to provide a forum for innovative work in the area of power amplifiers, including requirements for and accomplishments in amplifiers for both handsets and base stations.

**Abstract Submissions  
Deadline:  
2 October 2006**

## IEEE Radio & Wireless Symposium

9 – 11 January 2007,  
Long Beach, CA

**Radio and Wireless Symposium (RWS)** RWS is a leading interdisciplinary forum for the latest results in wireless technology, providing unique comprehensive view of wireless field from system level design to implementation, particularly for commercial wireless communication systems such as 3G/4G, WLAN, SDR, 802.xx, and UWB, etc, and RF up to mm-wave frequencies.

**Abstract Submissions  
Deadline:  
5 July 2006**

10-12 January 2007

## Silicon Monolithic Integrated Circuits in RF Systems Meeting (SiRF)

SiRF is the only conference devoted to Si-based devices, passives, integrated circuits, and applications for high-frequency systems. Over three days, papers and sessions will highlight the significant technological advances of this dynamic field, as well as provide a unique forum for the presentation of new ideas and candid exchange on the emerging challenges and opportunities.

**Abstract Submissions  
Deadline:  
28 July 2006.**

# IEEE Radio & Wireless Symposium

9 – 11 January 2007, Long Beach, CA

**Electronic  
Submission Deadline:  
5 July 2006**  
[www.radiowireless.org](http://www.radiowireless.org)

Sponsored by the Microwave Theory and Techniques Society • Communications Society

**General Chair**  
Mohammad Madhian,  
NEC Laboratories America  
madhian@ieee.org

**General Vice-Chairs**  
Xiaodong Wang,  
Columbia University  
wangx@ee.columbia.edu

George Heiter,  
Heiter Microwave Consulting  
g.heiter@ieee.org

**Technical Program Co-Chairs**  
Aly E Fathy, University of Tennessee  
fathy@ece.utk.edu

Geoffrey Li, Georgia Inst. of Technology  
liye@ece.gatech.edu

**Workshop/Short Course Chair**  
Afshin Daryoush, Drexel University

**Plenary / Special Session**  
Xiaodong Wang, Columbia University  
Paul Yu, Univ. of California, San Diego

**Poster Session Chair**  
Luciano Boglione, IECI

**Publications Chair**  
Jeremy Muldavin, MIT Lincoln Laboratory

**Panel / Rump Sessions Chair**  
George Ponchak, NASA Glenn Rsch. Ctr.

**Finance Chair**  
Jenshan Lin, University of Florida

**Publicity Vice-Chairs**  
Takao Inoue, Fish Technologies, Inc.  
Jeremy Muldavin, MIT Lincoln Laboratory

**Local Arrangements Chair**  
Timothy Lee, Boeing Satellite Systems  
Charlie Jackson, Raytheon

**Registration Co-Chairs**  
Nitin Jain, Anokiwave  
Tom Dobrino, Roos Instruments

**Symposium Planning & Management**  
Jennifer More, Fly Events LLC

**Electronic Submissions**  
Jeff Pond, US Naval Research Lab.

**PA Workshop Liaison**  
Peter Asbeck, Univ. California, San Diego

**SIRF Liaison**  
Jae-Sung Rieh, Korea University

**Exhibition Manager**  
Harlan Howe, Horizon House

**Emeritus Chair**  
Fred Schindler, RF Micro Devices

## Call for Papers

The 2007 IEEE Radio and Wireless Symposium (RWS 2007) will be held in Long Beach, CA, on 9-11 January 2007 as part of the Radio Wireless Week technical event. In addition to oral presentations and posters, RWS 2007 includes workshops, panels, and a major exhibition. Others collocating in the event are the Topical Meeting on Silicon Monolithic Integrated Circuits in RF Systems (SiRF) and the IEEE Topical Workshop on Power Amplifiers for Wireless Communications (PA Workshop).

### RWS 2007 sessions will highlight applications including (but not limited to):

- 3G/4G Wireless Communication including Emergency/Location Services
- 802.11/HiperLAN2 Wireless LAN Systems
- Software Defined Radio/Cognitive Radio and other Emerging Technologies
- 802.16/LMDS Broadband Fixed Wireless and Last-Mile Access Techniques
- Broadband Local and Personal Area Networks
- Wireless Sensors and Ad Hoc Networks
- Ultrawideband (UWB) Technologies
- Low-Power/Low Noise RF/Analog IC and System-On-Chip Solutions

### Sessions will cover systems and enabling technologies in the areas of:

- System Architecture, Integration, and Convergence Issues
- Digital/Analog Adaptive/Collaborative Signal Processing
- System Level Design, Modeling, and Simulation
- MIMO/Space-Time Processing, Relaying Technology, and Smart Antennas
- Signal Generation/Power Amplification, Linearization, and Active Components
- Front-End Antennas/Subsystems and Passive Components
- Cross-Layer Design

### Workshop Proposals

Proposals for workshop topics are solicited, and must be received by 4 June 2006. Details on the process and requirements can be found at [www.radiowireless.org](http://www.radiowireless.org).

### Paper Submission Instructions

Authors must submit a Summary (not more than 4 pages including figures) electronically using the [www.radiowireless.org](http://www.radiowireless.org) web page by **5 July 2006**. Authors can indicate their preference for oral or poster presentation format but the Technical Program Committee reserves the right regarding final presentation format decision. Please note that the only accepted file format is pdf.

Submissions will be evaluated for originality, significance of the work, technical soundness, and interest to a wide audience. Authors will be notified by 17 August 2006. Final manuscripts of accepted papers (4 pages in length) must be received by **24 October 2006** to be included in the published Proceedings.

### Major Exhibition

RWS 2007 is part of Radio Wireless Week which also includes a major commercial exhibition of technologies and services for radio and wireless development. See [www.horizonhouse.com](http://www.horizonhouse.com) for details.
